

Digital Library Modernization Project — Project Framework

Document Type	Project Framework	Reference Record	te-pro-2023-028
Department	Technical Education	Reference	TE/PRO/2023/028
Year	2023	Status	Active

Demo / Synthetic Document: This document was created solely for demonstration of the HEIRS project. It is not an official government order, regulation, policy, scheme, or legal document. All content is synthetic and presented only for project presentation purposes.

Issued in 2023 by Technical Education under reference TE/PRO/2023/028, this project framework establishes the arrangements supporting Digital Library Modernization Project. In scope are Digital Library, E-Resources, Discovery, together with related expectations for institutions and stakeholders.

Background and Rationale

Stakeholders across Technical Education have emphasised the importance of Digital Library as a foundation for credible, well-governed higher education. The present project framework responds to that expectation by setting out clear, practical direction.

The project landscape has evolved considerably in recent years, and institutions under Technical Education have responded with renewed attention to Digital Library, E-Resources, Discovery. This project framework provides the framework needed to guide consistent practice across the sector.

Purpose

By setting out the rationale, scope and operating expectations for Digital Library, the document aims to reduce ambiguity, support institutional planning and improve the quality of E-Resources across the system.

The purpose of this document is to establish a consistent basis for Digital Library, E-Resources across Technical Education-affiliated institutions, to clarify responsibilities, and to define the outcomes expected of every stakeholder.

Goals

This document seeks to enhance institutional capacity for Digital Library, E-Resources, promote transparency in decision-making, and ensure that resources committed to related initiatives are used effectively.

This document seeks to enhance institutional capacity for Digital Library, E-Resources, promote transparency in decision-making, and ensure that resources committed to related initiatives are used effectively.

Scope

Applicable across the full range of institutions governed by Technical Education, the document addresses planning, delivery, resourcing and evaluation, and may be supplemented by operational guidance issued subsequently.

The provisions apply to all universities and colleges under Technical Education. Sector partners, including employers and professional bodies, are expected to support implementation within their respective spheres.

Principal Provisions

Institutions are required to integrate Digital Library, E-Resources into annual planning cycles, designate accountable officers, and maintain records demonstrating compliance with the expectations set out here.

The document mandates periodic self-assessment against Digital Library, disclosure of material information to Technical Education, and corrective action where institutional performance falls short of the stated expectations.

Implementation Pathway

A dedicated implementation pathway, covering readiness assessment, capacity building and progressive rollout, has been designed to allow institutions of varying size and maturity to comply.

Implementation will proceed through phased institutional adoption, supported by professional development, shared guidance and a common reporting calendar established by Technical Education.

Institutional Responsibilities

Heads of institutions bear overall responsibility for embedding Digital Library, supported by designated coordinators, academic bodies and administrative units within each institution.

Technical Education provides policy direction, capacity support and performance oversight, while institutions translate the framework into operational practice and maintain day-to-day accountability.

Monitoring and Evaluation

Monitoring covers both compliance and quality, combining documented evidence with stakeholder feedback to build a complete picture of institutional performance over time.

Conclusion

The success of this project rests on shared understanding and consistent application. Technical Education stands ready to support institutions in implementing Digital Library and looks forward to reviewing collective progress.
